These Overlords.

Speaking of the directors of corporate power and the managers of organized wealth. The Outlook says: These overlords are some of the most powerful, noble-spirited, generous men; they are sometimes mean, niggardly, unscrupulous men; but whatever their character, they are overlords. Their prosperity often depends on legislation. Sometimes unscrupulous politicians threaten them with unjust legislation against which they must protect themselves; sometimes they desire special legislation to promote their industries. Hence the "boss" and the "machine." All political parties must have leaders: when the leader becomes a servant of plutocracy, he is a "boss." All political parties must have organization. When the organization becomes tributary to plutocracy, it is a "machine." The analysis is very simple. And one will find, by applying it, that the bosses are generally on the side of the steel trust, the sugar trust, the railroad trust and all sorts of moneyed aristocracy that is massing its millions at the expense of the people. And because Roosevelt is against the depredations of the moneyed power, these bosses give him the cold shoulder or are wholly opposed to him.

Thus, the political situation is closely related to the problem of the square deal for which the people are contending. It is time for the plain citizens, the man who labors, the man who has to hoe his own row, and who does not make his bread out of the adventures of politics, to look the issue square in the face.

They will in time. The problem is gathering front and towering high. The contention is no little across-the-fence bickering. We are approaching the great revolution of peace, out of which will come the true glory of American citizenship.—Ohio State Journal.

A ship subsidy law would be a great snap for a few people. The general public would foot the bill and receive no benefits.

When a man gets to be as old as Senator Cullom and feels that every day brings him nearer to the time for paying the last great debt of nature, it is mighty gratifying to see him turning his thoughts to such righteous aims as the revision of the tariff. While it is true that the old must die, it is not to be forgotten that the young may die. Let the more youthful members of congress, therefore, join in the good cause of giving to the consumers of this country a square deal.—Kansas City Times.

Sold—The 100-Acre Farm

I advertised in last week's NEWS-HERALD is gone. The first man who saw it took it at the price. I said it was a bargain and it was. A dozen people wanted it. Now here's another bargain. It's over in Clinton county near Midland City, between two pikes, half mile each way to either; school half mile; 100 acres in this farm, over 40 acres fine bottom, all level except some along the creek; fences, some good, some not. 4 good wells, nearly new frame house, 6 rooms. Barn 40x60, roof not very good, out buildings; old and young fruit. Soil mostly black sandy clay, 7 acres timber. Here's a farm worth every dollar asked for it if it had no buildings on it. Think of the kind of land you are getting and only \$50 an acre. Then you can pay only \$2000 cash and have time on the rest at 6 per cent. You can make the balance off the farm inside of 2 years easily. Now you know enough about this farm. So come and go with me to see it and close this deal.

I also have another of 160 acres in this county. A No. 1 stock farm which I can sell you for less than \$20 per acre on dirt road and poor buildings, but it's cheap. Now if you want one of these farms come at once. Don't wait as they'll go at these prices. Maybe you want to go to some other estate, if you do, then you want to see me by all means. Don't matter where you want to go, if you want land, I believe I can do you good. Doesn't cost you anything to see me and talk the matter over anyway. I'll look for you in soon to see me.

A Novel Report.

The Superintendent of Streets in Cleveland recently summoned to his presence an Irish officer, to whom he said:

"It is reported to me that there is a dead dog in Horner Street. I want you to see to its disposition."

"Yis, sor," said the subordinate, who immediately set out upon his mission.

In half an hour the Irishman telephoned his chief as follows: "I have made inquiries about the dog's disposition, and I find that it was a savage one."—December Lippincott's.

Truly death leaves a shining mark never more truly verified than in the death of Bertha Elliott, the only daughter of Thomas and Allie Elliott at their home near Beaver's Mill. Miss Bertha left this world of care and sorrow Saturday morning, November 24, aged 13 years, 9 months and 10 days, entering the world from which no traveler ever returns. She was a beautiful young girl just budding into young womanhood, with a strong desire for mental developments. She was stricken with that dread disease typhoid fever and with the best of medical attention and all fond parents and kind friends could do she was beyond their power. The Lord had a vacant chair, he seen fit for Bertha to occupy. The stricken parents should ever remember that she was a bud the garden gave them.

A pure and lovely child
He gave it to their keep
To cherish undisturbed
But just as it was opening
To the glory of the day
Down came the heavenly angel
And took their bud away.

Funeral services were conducted at the Pleasant church by Rev. J. W. Klise, after which she was carried to her last resting place in cemetery adjoining the church by five school-mates and one friend.

Obituary.

As moments carry us into hours, hours into months, months into years, years into eternity where there is no age, we are caused by the decline, to pause and measure indefinitely in our minds the closing and yet just the beginning of a life. Mysterious Death has again been witnessed in our midst.

Jamline Frances Wilson was born March 3rd, 1850. Departed this life Nov. 10, 1906, aged 56 years, 8 months and 7 days. She united with the M. E. Church at Fairfax in 1874, under the labors of Rev. Cole United in marriage to Howard Williamson, Sept. 23, 1886, and on June 21, 1904, was married to Dean Ogden.

Mrs. Ogden was a model woman of the rural home. In our organization and in our living there is much mystery, but in Death mystery has its climax. Still in the life of one like the departed, ever struggling to wear the costume becoming a soldier of the cross, it is a much greater task to live than to die.

For such as she "Death has no sting." We mortals in our way of thinking, perhaps would have the cup of Death pass and make its exit from the face of our beautiful earth. But "His ways are not our ways" neither are "His thoughts our thoughts." It is His will that we should taste of death.

In her last moments she expressed a perfect willingness to go home, home, eternal home of joy and peace, where sorrows never come, where sickness and pain have no entrance and where life has no end.

She leaves a husband, three sisters, and one half sister to mourn the loss of a devoted wife and a loving and endearing sister. J. E. S.

CARD OF THANKS.

We desire to thank the neighbors and friends for their kindness during the sickness and death of our beloved wife and sister.
